

# PICAXE DOWNLOAD CABLE

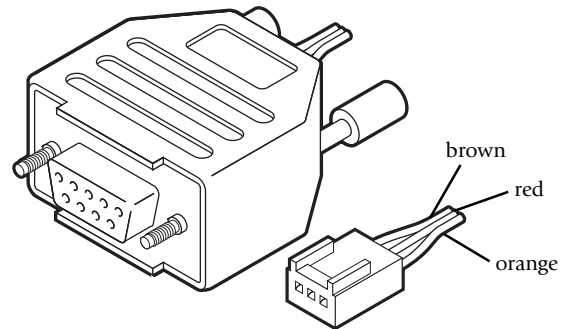

---

## Order Codes:

AXE025      PICAXE download cable

## Contents:

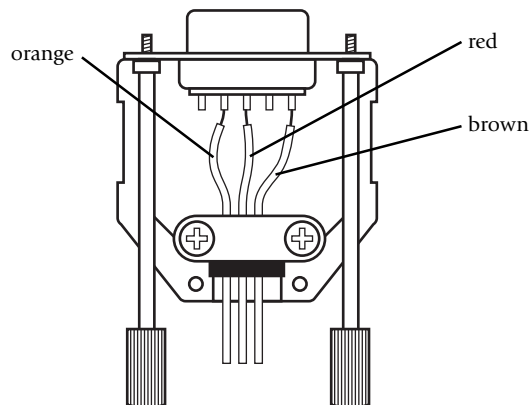

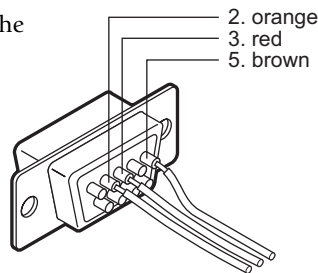

- 3-core cable (750mm) with 3-way 0.1" connector
- 9 pin D-type connector (female)
- 9 pin D cover

## Assembling the Cable

The PICAXE download cable requires a 3-way 0.1" connector at one end and a 9 pin D-type connector at the other. The 3-core cable is supplied with the 3-way connector already in place. The 9 pin connector should be connected to the cable in the following way:

1. Strip a short length (approx. 3mm) of plastic insulation from the end of the cable to expose the metal strands.
2. Solder the three wires to the 9 pin connector as shown in the diagram. The orange wire connects to pin 2, the red wire connects to pin 3 and the brown wire connects to pin 5.
3. Insert the connector into the plastic casing and clamp the cable in place by securing the two screws.

4. Snap the plastic casing shut to complete the cable.
